

Weather Summary for Radio Lighthouse, Jolly Hill, Antigua March 2010

Dale C. S. Destin
Antigua and Barbuda Meteorological Service
April 27, 2010

Jolly Hill experienced below normal rainfall during March. The total for the month was 1.49 inches as compared to the normal figure of 2.28 inches (1981 – 2010). The rainfall total for this month was only 65% of the normal total. The maximum 1-day rainfall of 19.1 mm or 0.75 inches took place on March 8, as a result of a nearly stationary front. Low level troughs and fronts contributed most to the rainfall total for March. No temperature data is available for this month.
