...Tsunami Information Statement...

This is a Tsunami Information Statement to inform the public and disaster emergency authorities that, based on current data, there is no tsunami threat to Antigua and Barbuda following the recent seismic activity.

Preliminary Earthquake Parameters:

- Magnitude: 6.4
- Origin Time and Date: 02:00 AST 1800 UTC JUN 8 2026
- Coordinates: 22.8° North, 85.3° West
- Depth: 33 km/20 miles
- Location: Cuba Region

Evaluation:

An earthquake with a preliminary magnitude of 6.4 occurred in the Cuba region at 02:00 pm 1800 UTC on Monday June 8 2026.

Based on all available data, there is no significant tsunami threat from this earthquake. However, there is a very small possibility of tsunami waves along the coasts located nearest the epicenter.

Recommended Actions:

- No action required.
- Stay Updated - We advise the public to stay informed by following updates from the Antigua and Barbuda Meteorological Service and other official channels.
- Preparedness Reminder - While there is no immediate risk, this is a good time to review your tsunami evacuation plans and ensure familiarity with designated safe areas, especially if you are in coastal zones.

Next Update and Additional Information:

This will be the only statement issued for this event unless additional data are received or the situation changes.

Stay tuned to updates from the Met Service through the Common Alert Protocol (CAP) antiguamet.com, X (Twitter), Facebook and YouTube @abmetservice. Also, stay tuned to ABS Radio and TV and other media platforms for updates.
